

Land Environments of New Zealand

REGIONAL WORKSHOPS

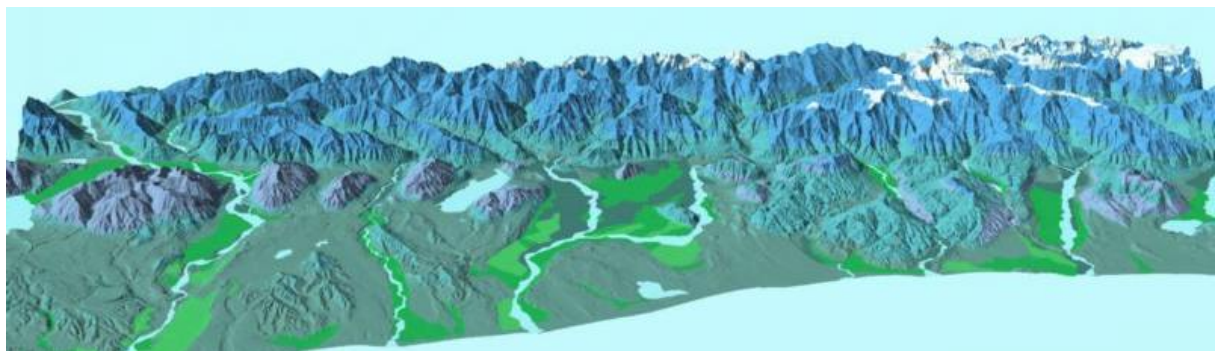

Manaaki Whenua Landcare Research and the Terrestrial and Freshwater Biodiversity Information System (TFBIS) Programme invite you to attend a workshop on Land Environments of New Zealand (LENZ). The workshops will provide information on the ideas and research underpinning LENZ, development of the underlying data and classification layers, LENZ strengths & limitations, and usage guidelines.

Each 1-day workshop will have a morning and afternoon session. The morning session will focus on the concepts and methods used in LENZ. The afternoon session will focus on applications and uses and foster broader discussion on the challenges presented by biodiversity conservation across scales and organisations. We plan to invite guest speakers to talk about their experiences using LENZ. Morning and afternoon tea and lunch will be provided.

*There is no cost to attend the workshops
but space may be limited depending upon demand.*

**Register at the LENZ website
(<http://lenz.landcareresearch.co.nz/>)
or fill out a registration form.**

Registration Deadline: One week prior to the workshop.
